

Welcome TO OUR GARDEN

The Van Vleck Board of Management and Montclair Foundation welcome you to this beautiful oasis in the heart of Montclair.

Thanks to the generosity of the Van Vleck Family and our many donors – and the dedication of our volunteers and staff – this property serves as an extraordinary resource for our community. A center for horticulture, education, music, art, and quiet contemplation, the gardens are open to the public for their enjoyment and the house is available to nonprofits for meetings and events.

Our cell phone tour and Visitor Center are sources of information on the history of the property and its horticultural resources.

Your contributions help keep this a special place for all to enjoy, and we welcome volunteers to help with our varied programs.

Please enjoy your visit.
